Office Action Summary	Application No. 10/523,876	Applicant(s) PENTECOST, WILLIAM FRANCIS	
	Examiner Ajay Vasudeva	Art Unit 3617	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 18 April 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

- A hull dividing into two parts beginning in the aft third of the length of the craft (emphasis added), as set forth in claim 34.
- A hull dividing into two parts, each part curving out in a convex curve toward the beam (emphasis added), as set forth in claim 34.
- The angle of conjunction being within 25 degrees of a right angle (emphasis added), as set forth in claim 34.
- The first two thirds of the length of the outwardly curving inner wall of the sponsons diverging from the starting point of the outward curve by 25 percent of the width of the craft, as set forth in claim 35.
- The inner walls of the sponsons diverging 70 percent of the distance from their starting point to the maximum waterline width in the aft third of the length of the sponsons, as set forth in claim 35.

No new matter is permitted.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3617

3. Claims 34 and 36 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 61-033382 A ('382).

JP ('382) shows a watercraft (see fig. 1) having a hull that is divided into two hulls in the aft section to form two sponsons with a roofed tail section, with the widest separation between the two sponsons being at the stern. The angle between the internal wall of each of the two sponsons and the bottom of the sponsons is within plus/minus 25 degrees of right angle. The division of hull into two parts appears to begin in the aft third of the length of the watercraft. Each part curves out toward the beam such that the resulting curved edge has a convex profile on its outward side and has a concave profile on its inward side.

Re claims 36, the angle between the outer wall of each of the two sponsons and the bottom of the sponsons is within plus/minus 25 degrees of right angle.

Allowable Subject Matter

4. Claim 35 is objected to as being dependent upon a rejected base claim, but would be allowable if the objection to the Specification is overcome, and if the claim is rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to claims 34 and 36 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record in the attached PTO Form 892, but not yet relied upon, is considered pertinent to applicant's disclosure.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ajay Vasudeva whose telephone number is (571) 272-6689. The examiner can normally be reached on Monday-Friday 12:00 -- 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, S. Joe Morano can be reached on (571) 272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
